Veterinary Surgeon's Claim Form.

Guidance for the attending Veterinary Surgeons

Our insured has informed us that their horse is suffering from a disease/has sustained an injury and we would appreciate your giving us the information asked for below, in order that any subsequent claim may receive consideration. This form should be returned immediately to the insured, even if the treatment is incomplete. Please note that any charges made for the completion of this form, costs for livery and keep of the animal and transport costs are the responsibility of the owner and may not be covered by the insurance. Invoices and details of the cost of the treatment should be sent to the owner/insured to send on to us. We may make, at our discretion, payment of costs accepted by the insurers direct to you unless specifically requested otherwise. You will need to ensure you collect any excess and other costs not covered by the insurance. There are some procedures where consent is required before they are carried out:

1. Humane destruction unless on humane grounds with no other option of treatment being available.

2. Diagnosis by full body Scinitigraphy (bone scan) may not be covered unless we have given our prior written consent. The policyholder should check their Policy Document or contact us for guidance.

You will find our claims team willing to be as helpful as possible so please feel free to call us if you wish to discuss any matter. The contact details are shown overleaf and if it is an emergency outside of the hours of 9 to 5 on a weekday, or 9 to 12 on Saturday, you can use our special Emergency Helpline: 07747 458486. We may need to contact you again, but will try and keep further requests for information to a minimum.

Details of the horse concerned:

Name & address of owner

Name of horse		Sex	Age
Height	Colour	Identity Marks	

Breed

Date and time of your first consultation (For the condition for which this claim is presented)

What symptoms are/were exhibited?
